Is this report being filed on behalf of more than one health care charitable trust? No

IF YES, please complete a copy of this page for each individual organization included in this filing.

Section 2: MISSION & COMMUNITY SERVED

Mission Statement: The mission of the Center is to provide a broad, comprehensive array of high quality, effective and accessible mental health services to residents of the eastern half of Rockingham County.

Has the Mission Statement been reaffirmed in the past year (*RSA 7:32e-I*)? Yes

Please describe the community served by the health care charitable trust. "Community" may be defined as a geographic service area and/or a population segment.

Service Area (Identify Towns or Region describing the trust's primary service area):

Our Service Area is identified by the State of New Hampshire Bureau of Behavioral Health as Region VIII which includes the following 24 communities: Brentwood, Deerfield, East Kingston, Epping, Exeter, Fremont, Greenland, Hampton, Hampton Falls, Kensington, Kingston, New Castle, Newfields, Newington, Newmarket, North Hampton, Northwood, Nottingham, Portsmouth, Raymond, Rye, Seabrook, South Hampton and Stratham.

Service Population (Describe demographic or other characteristics if the trust primarily serves a population other than the general population):

As the state designated Community Mental Health Center for Region VIII we provide services pursuant to RSA 135-C and the He-M Administrative Rules applicable to our services. Services include 24/7 access to emergency services for those in our designated region experiencing a psychiatric emergency or crisis. We provide intake and assessment to determine clinical eligibility for state defined mental health services. In addition to state designated programs, we provide mental health services to those who do not meet state clinical eligibility criteria, but still require medically necessary services.

Section 3: COMMUNITY NEEDS ASSESSMENT

In what year was the last community needs assessment conducted to assist in determining the activities to be included in the community benefit plan?

2013 *(Please attach a copy of the needs assessment if completed in the past year)*

Was the assessment conducted in conjunction with other health care charitable trusts in your community? Yes

Based on the needs assessment and community engagement process, what are the priority needs and health concerns of your community?

Please provide additional description or comments on community needs including description of "other" needs (code 999) if applicable. *Attach additional pages if necessary:*

Seacoast Mental Health Center does not conduct our own community needs assessment. We did work with Exeter Hospital and a collaborative of nonprofit healthcare providers on the needs assessment filed via Exeter Hospital or appropriate related organization.

All areas of need continue to be impacted by the ongoing economic and system of care challenges we are facing. Community mental health centers have continued to experience

impacts from many years of erosion of support from the state coupled with the significant reductions in funding to other safety net providers including the hospitals. In the most recent State budget funds were added to expand safety net services, but not all of those funds were allocated to expand availability of necessary services and supports. Funds were allocated to support the continued development of Assertive Community Treatment Teams as outlined in the State's Community Mental Health Settlement Agreement. The transition to Medicaid Care Management continues with the state recently requiring the vendors to pay community mental health center providers fee for service rather than continuing with the recently instituted case rate system of payment reform. We continue to work with DHHS and the vendors to address this issue that could hamper our ability to provide sustainable services. No decrease in expectation for mandated, but unfunded care has occurred during this time.

Section 4: COMMUNITY BENEFIT ACTIVITIES

Identify the categories of Community Benefit activities provided in the preceding year and planned for the upcoming year (note: some categories may be blank). For each area where your organization has activities, report the past and/or projected unreimbursed costs for *all* community benefit activities in that category. For each category, also indicate the *primary* community needs that are addressed by these activities by referring to the applicable number or letter from the lists on the previous page (i.e. the listed needs may relate to only a subset of the total reported costs in some categories).

Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): As a state-designated Community Mental Health Center, we work with many other stakeholders in our region including hospitals, primary and other specialty healthcare providers, schools, law enforcement, family members and peer support. We use these relationships to solicit input on community needs. In addition, we are part of the committee that worked with Exeter Hospital in the completion of their larger, more structured needs assessment completed this year. We continue to work with community partners to expand locations of access to care by co-locating clinical staff in schools, community health centers and a pediatric office. New this Fall, will be the addition of a APRN to provide psychiatric services at Cross Roads House homeless shelter in Portsmouth. We are expanding services offered through an Assertive Community Treatment Team for some of our most impaired adults as well as our Supported Employment Program. We also continue to maintain oversight of a state-wide prevention program for Elders (REAP).

Included in this submission are copies of a number of reports prepared for BBH/DHHS as required by contract, rule or for re-designation. As the designated community mental health provider for Region VIII, we comply with RSA 135-C to provide services to those who meet state clinical eligibility requirements for service without regard to ability to pay. For the Fiscal Year covered by this report, the state provides funding that is applied to the state's required match for Medicaid services, pass through of federal grant dollars and general fund dollars to support the provision of emergency services to individuals who have no insurance coverage available to them and a portion of the nonbillable costs of the Assertive Community Treatment Team services infrastructure. Other than as noted, the state does not provide funding to cover mandated services for consumers who have no ability to pay. We offer a sliding fee schedule to eligible consumers who are uninsured and unable to pay for services. Beyond the state mandated populations, we also provide adult outpatient therapy and testing services to those who require services, but do not meet the state eligibility criteria. We use town funds allocated to the center, grant funding and other donations to support the offering of reduced fees to the uninsured members of this population as well. With the implementation of the Affordable Care Act and our State's implementation of the NH Health Protection Program we anticipate seeing more people who have some level of insurance coverage, but in the case of commercial and marketplace plans the deductibles can be as high as \$5,000 which is often out of reach for individuals to pay.
